Subject: RE: Documenting refusal to discuss children's well being
Message:

Tony,

As I continue to implore you, I think it is in our best interest, based on previous behaviors, that we communicate in a documented forum. I will be able to answer all relevant, child-related questions over this website. This is my boundary.

Please stop involving the children by asking them to hand me the ipad and telephone. You are ignoring my very clear boundary.

Rocco saw Jafferani in late August. Dr. Jafferani in Saginaw. You have his contact information and have had it for months.

BTW, Rocco has asked to return to Robin Fenlon, shortly after speaking to you on Sunday. She is at List Psychological. I would like to make an appointment for him this week.

In a text message dialogue with you, I attempted to bring up the children seeing a therapist in August and you created a barrier stating that they don't need to and that they are fine in Maryland, and in addition stating "IF there are behavioral problems, there are many fine Boarding Schools in Maryland".

This statement appears to be a veiled threat, not associated with the direct subject at hand and is not in line with your assertion that you "have no money". Most importantly, you are ignoring the needs of your children creating a barrier for me to meet their needs.

Bottom Line: Jafferani in August

Bottom Line: The children need to go see a therapist, they already know and trust Robin Fenlon.

Message:

Melissa,

I continue to reach out to you regarding our children's welfare. Please give me the name and contact information of all Saginaw Providers that have seen our children since August 2014.

Please give me a list of all doctors that have prescribed medicine for Rocco and Mia.

I am always available to discuss over a friendly phone conversation.

thanks,

-Tony
